DETAILED ACTION

Allowable Subject Matter

Claims 16-28 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 16-28 are allowed over the prior art because none of the prior art disclosed or suggested showing the particular structure and/or operation recited in these claims namely:

Claims 16-24 call for, among others, a method of decreasing a cutoff frequency of the feedback circuit with an increase in a gain of the variable gain amplifier circuit or vice versa.

Claims 25, 26 call for, among others, a method of controlling the gain of the variable gain amplifier circuit and a cutoff frequency of the feedback circuit to make a lower limit frequency of the output signal substantially constant regardless of variation of a gain of the variable gain amplifier circuit.

Claims 27, 28 call for, among others, varying a cutoff frequency of the feedback circuit according to a variation of the gain of the variable amplifier circuit to make a lower limit frequency of the output signal substantially constant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional references (Terada et al. (5,451,904); Myer (4,873,492); Schroder (4,072,906)) show further analogous prior art circuitry.
